Your First Choice for
Process Equipment & Parts

Your First Choice for Process Equipment & Parts

BES sells sanitary process equipment including:

- Pumps & parts
- Valves & parts
- Heat exchangers
- Stainless fittings
- Instrumentation
- Controls hardware, engineering and programming
- Filtration
- Sanitization
- Sanitary hoses
- Sanitary tube
- Sight glass
- Motors & geardrives
- CIP/COP/washdown
- Gaskets

BES represents more than 50 manufacturers including:

- Ace Sanitary
- Alfa Laval
- Anderson-Negele
- Dixon
- Fristam
- Inline
- Kieselmann
- Sanitube
- Thermaline
- Waukesha

BES offers specialized services including:

- Equipment selection & sizing
- Installation & integration support
- Automation & controls
- MRO
- System optimization & process improvements
- Troubleshooting
- Energy savings
- Custom fabrication
- Custom modular and portable skids

Service & Repair

BES offers training for maintenance and minor repairs for pumps, valves and instrumentation. Our staff holds maintenance certifications from Anderson-Negele, Fristam, Pentair/Sudmo, SPXFlow/Waukesha and Vogelsang.

Barnum Mechanical Inc. (BMI), is a full service design-build firm providing:

- Process engineering
- Project management
- Automated control systems
- CAD, 3D modeling & BIM design
- Custom fabrications
- Field installation

We build Custom Modular and Portable Skids including:

- Blending/batching systems
- Bulk ingredient receiving storage and distribution
- CIP systems
- COP systems
- Drum/container handling systems
- Filtration skids
- Hot water support systems
- Hydration systems
- Mixproof valve assemblies
- Pasteurizing
- Pump carts
- Sanitary air systems
- Sanitization/rinse/foam systems
- Steam/condensate handling systems
- Thermal process systems
- Water treatment systems
